Allowable Subject Matter

Page 2

Claims 1, 3-6, and 8-14 are allowed. For the purposes of allowance they have been renumbered as 1-12, respectively.

The following is an examiner's statement of reasons for allowance:

The prior art discloses the use of leaky cables which create electromagnetic fields which may be used for communications, including in buildings and arranged within rooms in floors, walls and ceilings to usefully communicate around objects, such as showcases. It is also known in the prior art that orthogonal frequency division multiplex (OFDM) is a useful way to modulate multiple signals onto orthogonal tones, which results in greater spectral efficiency. The present invention applies the use of a leaky transmission path as an antenna in an indoor space, using a wireless base station to communicate using OFDM through the leaky communications path, and further limits to a system wherein the path is arranged such that a time difference of the waves occupying a main power of incoming waves is in a guard section of the OFDM signal. When incorporating all the limitations as claimed, none of the prior art teaches the features of the independent claims.

Regarding the dependent claims, none of the prior art teaches the features as claimed when said claims incorporate all the limitations of the base claims and any intervening claims from which they depend.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2618

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lewis G. West whose telephone number is 571-272-7859. The examiner can normally be reached on Monday-Friday 7:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew D. Anderson can be reached on 571-272-4177. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
